PRINCE HENRY WILL

Be Made in Time of the World's Fair.

WANTS TO HUNT IN ROCKIES.

Regrets Shortness of Last Trip and Desires to See All' America as Private Citizen Without Form or Ceremony.

Washington, May 15.—Prince Henry of Prussia, brother of the Emperor of Germany, who visited this country on the occasion of the launching of the yacht Meteor and was given a series of receptions which

attracted great attention because the

Prince was on a visit of amity, representing

his imperial brother, will make another trip to the United States. A prominent Government official, who is a friend of Prince Henry and has visited Germany and been received by the Emperor.

many and been received by the Emperor, and to-day that Prince Henry would uncoubtedly come to America in 1994 for the purpose of seeing the World's Fair at St. Louis and making a much more extensive tour of the country than he was able to do when he was here in 1991.

He was pleased with this country, and complained that he had not seen half enough of it. When he comes he will not be in his official capacity, but will be incognite. He does not want to have public receptions and dinners, as was the case when here before, and desires to travel as a private citizen.

receptions and dinners, as was the case when here before, and desires to travel as a private citizen.

He probably will go as far as the Pacific Coast, and no doubt will do some hunting in the Rocky Mountains, about which the President has given him much information.

No official information has been received about the intended trip of Prince Henry at the German Embassy here, and Baron von Sternburg knows nothing about the plans of the brother of the Emperor. Private advices from Berlin, however, indicate there probably will be other German Princes in the United States to visit the St. Louis Fair. It is possible that the Crown Prince will come with a suite, and be accompanied by his brother, Eitel. If the Crown Prince should come, he would, of course, be the representative of Emperor William at the Fair. It is not regarded as settled that the Crown Prince will come and this matter will be decided by the Emperor finally in a few months. But the visit of Prince Henry is regarded as sesured.

The time of the coming of Prince Henry

But the visit of Prince Henry is regarded as assured.

The time of the coming of Prince Henry is not yet fixed, but it will occur very soon after the termination of his tour of sea duty as Admiral in the German Navy, which will be about June, 1993.

It was announced at one time that Prince Henry would come to the United States this year to represent the German Emperor at the unveiling of the statue of Frederick the Great, which he has presented to America. This presentation has been hanging fire. It has been postponed from time to time, ostensibly because no proper site could be found, but really for political reasons, and there is no certainty that the statue will be unveiled next year, so that the coming of the Prince of Prussia is not connected with that somewhat uncertain event.

FATHER MISTOOK SON FOR AN ENEMY AND SHOT HIM.

Norris Kelly, Returning From School to Home at Frankfort, Kr., Fatally Wounded at Gate.

REPUBLIC SPECIAL Frankfort, Ky., May 15.-Fearful that some one was coming to wreak vengeance tragedy two weeks ago, W. P. Kelley, one of Oldham County's wealthiest citizens, shot in the dark and fatally wounded his son Norris Kelley, aged 25, medical student who was returning home at 9 o'clock last night at the gate of the Kelley homestead.

The father was on the porch and called to the son, who was returning home unexpectedly. Young Kelley did not answer and the father fired a shotgun, the load striking the boy in the abdomen and kidneys.

the boy in the abdomen and kidneys.

He will die. The father collapsed when he learned of his mistake, and it is feared he will not recover from the shock.

The tragedy of to-day is the sequel of a killing which occurred on May I, when the Kelleys and Wheelers, nelghboring farmers, took part in the killing of William Mansfield, who had driven through their land at the protest of the owners.

Mansfield defied the land owners and drove through the land. One of the party killed Mansfield. At the preliminary trial the Kelleys and Wheelers were acquitted. Since then the elder Kelley has been in the highly nervous state over the affair, and has gone armed and kept an alert watch over his premises. The Kelleys are among the best-known families in that section of the country.

The most important of the amendments provides that the United States mail shall be carried exclusively for one year after the completion of the work of construction. The other amendments provide that the bon's of the company shall not be allowed to deteriorate, and that the Comptroller shall have access to the books of the company as far as ascertaining the amount of revenue due the city is concerned.

Postmaster Baumhoff said that the opportunity was presented to secure a great improvement in the mail facilities, and inasmuch as the national Congress had appropriated a comparatively small sum to be expended in five cities, which could at the discretion of the Postmaster General be given to one, the delay of St. Louis in granting permission for the laying of pneumatic tubes seriously imperiis the chances of receiving any of the appropriation.

He stated further that if the Post-Office Department finds that the sum allotted to St. Louis cannot be used at the time the appropriation is available, the money will be divided between the cities who are in a position to begin the work at once. and while he was gone three more shots were fired. The fund for the relief of the victims of Russian brutality at Kishineff increases with a steady growth that is encouraging to those who have the matter in charge. The total amount collected on the East Side amounts so far to more than \$30,000, and that, in conjunction with the money contributed in other sections of the United States, will make a grand total not far short of \$50,000.

The city is divided into ten license districts and \$5 cents on the hundred dollars is levied on stock while \$1 a thousand is assessed upon sales. The business and stock of the last year is taken as the basis for the license for the coming year. The Continental Tobacco Company was the heaviest contributor last year, paying \$23,800 to the License Collector for the privilege of conducting its business. Of the amount collected in this way, the city gets 70 per cent and the State and School Board 30 per cent. City tax of 20 cents a hundred on raw materials, finished products, merchandise, tools, machinery and appliances. On the foregoing there is a school tax of 40 cents a hundred and a State tax of 25 cents. Of this last amount 10 cents is an interest tax. **GOVERNOR OF TEXAS VETOES** APPROPRIATION MEASURES.

Half a Million Dollars Cut Out of Provision for State Institutions and Bruzos River Survey.

REPUBLIC SPECIAL Austin, Tex., May 15.-Governor Lapham to-day handed down his message upon the general appropriation bill passed by the recent Legislature. He cut half a million dollars out of the

total appropriation of seven million for the next two years. Among the most important items he cut out were those appropriating fifty thousand for a survey of the Brazos River, with a view of constructing levees along its banks

to prevent overflows. Another item cut out was thirty thousand providing for a remodeling of the San Jacinto battle grounds with a view of making a public park out

modeling of the San Jacinto battle grounds with a view of making a public park out of them.

The State elecmosynary institutions were hard hit by knocking out various moneys appropriated for new buildings and the like. Quite a number of appropriations for State normals were cut very materially and all the miscellaneous items seeking to appropriate money for various individuals for various claims they had against the State amounting to some \$150,000 were knocked out. The remainder of the amount was scattered through the appropriations of the various institutions of the State.

While the Governor cut the bill half a million, according to the present revenues of the State, the total appropriations even now will exceed the State's income by at least half a million, thus creating that amount of deficiency for the Legislature to face during the next two years.

Levin, he said, instructed him to tell the court that he had been in this country sixteen years and had come before he was 15 years old.

The law requires that each applicant for naturalization papers have a witness to the truth of his statements. The three witnesses yesterday testified that they had no witnesses. Levin's trial probably will continue until

NARROW ESCAPE FROM DEATH. It was learned to-day that Edward Andrus of Holder, Mo., and John A. Reilly,

Hotel With Gas Turned On.

Jasper Neighbor and W. G. Hester of Memphis, Tenn., guests at the Baldmore Hotel, No. 1803 Market street, were found unconscious in their room yesterday, with a gas jet turned on.

A chambermaid heard groans coming from the room, and notified W. R. Stevens, the clerk. He went to the room and detected the smell of gas. He kicked in the door and found both men unconscious.

The gas jet was turned on full, but a window in the room was partly up. This probably saved the lives of the men. Neighbor and Hester were removed to the City Hospital. It was several hours before they were revived.

Neighbor said he and Hester came from Memphis Thursday evening and were streeter men. having come to St. Louis to secure positions with one of the atreet-railway companies. He said he thought he turned off the gas when he went to bed. The men will recover.

whose names appear on the register of the West Shore Hotel, are respectable young physicians, who have been in New York about two weeks attending a post-graduate about two weeks attending a post-graduate course at the Flower Hospital.

Their arrival at the hotel on the same day and hour of Rosseau's arrival from Chicago at the West Shore station, at the foot of Forty-second street, coupled with the remark of an expressman, who carried Rosseau's trunk to the Currie house from that terminal, led to a surmise that one or both of these names might have been assumed by the Chicago arrival.

It is now well established that Rosseau did not go to the West Shore Hotel.
